## **H1N1 Clinics**

The Gloucester County Department of Health and Senior Services is continuing to offer H1N1 (Swine) flu vaccine. At this time the health department will be offering the H1N1 vaccine to individuals in certain target populations. The next scheduled clinic is specifically for adults age 18 through 40 years of age with chronic medical conditions.

The Gloucester County Department of Health is following Centers for Disease Control (CDC) Guidelines in administering the vaccine. Anyone with questions can call the Gloucester County Flu Hotline at (856) 218-4141.

Below is the H1N1 (Swine) flu vaccine clinic date, and those that would be eligible at this time to receive the vaccine:

- **Adults age 18 through 40 years with chronic medical conditions including pulmonary disease (including asthma), cardiovascular disease (except hypertension), kidney disease, liver disease, cognitive disorders, neurologic/neuromuscular disorders, diseases of the blood, metabolic disorders (including diabetes mellitus) or immune compromised individuals (including immunosuppression caused by medications or by human immunodeficiency virus). All clients will be screened.**

### **ON:**

Friday November 13<sup>th</sup>, 2009  
Clayton County Complex  
1200 N. Delsea Drive  
Clayton, NJ 08012  
4:30-6:30PM

**Proof of Residency required, as preference will be given to Gloucester County residents.**

The Health Department reminds residents again, that people not in this priority group wait until additional vaccine is received to get their shot. It is not a question of if, but rather when the ordered doses of H1N1 will arrive.

The health department would like to remind residents of what they can do to keep themselves and their families healthy.

- Cover your nose and mouth with a tissue when you cough or sneeze.
- Wash your hands often with soap and water, especially after you cough or sneeze. Alcohol-based hands cleaners are also effective.
- Avoid touching your eyes, nose or mouth. Germs spread that way.
- Stay home if you are sick.

If residents have any questions they can call our Flu hotline at 856-218-4141 or visit [www.gloucestercountynj.gov](http://www.gloucestercountynj.gov).
